

JBL Technical Trading FZC

Generator Maintenance | Electrical Services | Power Solutions

*Generators Maintained,
Performance Sustained*

About Us

- JBL Technical Trading FZC is a trusted provider of generator maintenance, electrical solutions, spare parts supply, and industrial technical services across the United Arab Emirates.
- With a strong focus on quality, reliability, and customer support, we deliver end-to-end solutions for diesel generators, ATS & synchronizing systems, alternators, and power distribution equipment.
- Our team of skilled technicians and engineers ensures high-performance maintenance, precise diagnostics, and long-term system reliability for clients in the construction, marine, energy, and infrastructure sectors.
- Through expert service, genuine spare parts, and rapid response capabilities, we help businesses maintain continuous, safe, and efficient power operations.

Our Vision & Mission

Our Commitment to Excellence

Our Vision

To be the most trusted partner for power reliability and technical services in the Middle East—leveraging innovation, high technical standards, and service excellence to deliver uninterrupted power for every client.

Our Mission

To provide world-class generator maintenance, electrical services, system optimization, and emergency support. Our goal is to ensure operational continuity, energy efficiency, and dependable performance through fast response times and top-quality technical expertise.

Our Core Values

Integrity

At JBL Technical Trading FZC, integrity forms the bedrock of every decision we make. We operate with honesty, transparency, and fairness — always keeping our commitments and building trust with clients, partners, and suppliers.

Excellence

We are committed to the highest standards in everything we do — from sourcing and delivering technical components to providing customer support. Excellence means not just meeting expectations but continually raising the bar in quality, performance, and service.

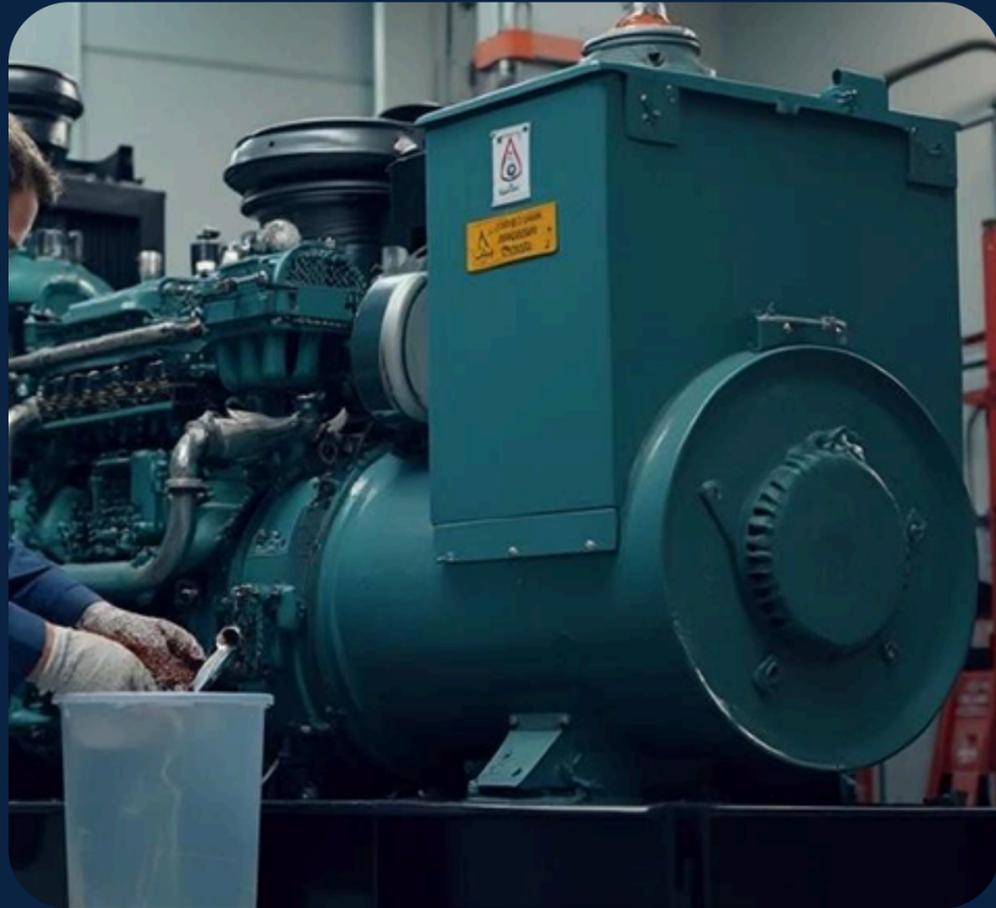

Innovation

Innovation fuels our growth and adaptability, enabling us to develop **cutting-edge solutions** that meet the evolving needs of our clients and the industry. We embrace change and creativity.

Customer Centricity

Our clients are at the heart of everything we do. We prioritize **understanding their needs** and delivering tailored solutions that enhance their experience and satisfaction with our services.

Our Products

We supply high-quality spare parts for:

- Diesel generators (All brands)
- Alternators
- Engines (filters, pumps, injectors, gaskets, belts, hoses, etc.)
- Control modules & electronic controllers
- ATS & synchronizing components
- Batteries and battery chargers
- Coolant, lubricants, hoses, and consumables
- Switchgear components (breakers, relays, contactors)
- Chawlyne walls / fire-rated enclosures

ANNUAL MAINTENANCE CONTRACT (AMC)

- At JBL Technical Trading FZC, we offer a comprehensive Annual Maintenance Contract (AMC) designed to give our clients peace of mind and ensure the long-term health of their technical assets. Under this contract, we provide regular preventive maintenance, rapid-response repairs, and ongoing system checks — all tailored to the specific needs of your industrial or technical equipment.
- Preventive Maintenance: Scheduled inspections and servicing to detect and address issues before they lead to failures. This lowers the risk of costly downtime and extends the life of your equipment.
- Corrective & Emergency Support: Fast and reliable repair services, including on-site support when unexpected problems arise.

ALTERNATOR REWINDING

We specialize in high-quality alternator rewinding services designed to restore performance, extend equipment life, and minimize downtime for our clients across industrial, marine, and commercial sectors. With advanced diagnostic tools, skilled technicians, and strict adherence to international standards, we ensure every rewound alternator performs with maximum efficiency and reliability.

Our Alternator Rewinding Capabilities:

- Rewinding of AC & DC alternators (all brands and capacities)
- Replacement of damaged coils and insulation systems
- Rotor and stator repairs, cleaning, and core re-lamination

- At JBL Technical Trading FZC, we offer expert services for generators of every scale — from compact portable units to heavy-duty industrial sets. We understand that reliable power is mission-critical, whether for backup systems, continuous prime power, or remote installations.

- We also specialize in rewinding alternators, repairing control panels, and performing comprehensive load-bank testing to validate performance under real load conditions.

9 kVA -3000 kVA Gensets

ATS & SYNCHRONIZING

At JBL Technical Trading FZC, we specialize in the technical servicing, repair, installation, and commissioning of Automatic Transfer Switch (ATS) and Generator Synchronizing Systems. Our experienced technicians ensure that power changeover and generator synchronization operate smoothly, safely, and efficiently across industrial, commercial, and marine environments.

We handle all types of ATS systems and synchronizing controllers, offering reliable solutions to minimize downtime and maintain stable power continuity. Our technical expertise covers mechanical, electrical, and control-wise troubleshooting to restore systems to optimal performance

Our Unique Edge

The Advantages of Working with JBL

- Deep technical sourcing expertise — we connect you directly with trusted OEMs and authentic components from around the world.
- Comprehensive service coverage — from equipment procurement to maintenance, repair, and lifecycle support.
- Rapid response and uptime focus — priority service, fast parts delivery and on-site support when it matters most.
- Quality and compliance assurance — all components and services adhere to international standards and strict quality checks.
- Tailored client partnerships — we adapt our solutions and service plans to your industry, scale and project needs.
- Transparent, predictable cost-structure — long-term maintenance contracts (AMCs) and clear scope mean fewer surprises.

Meet Our Team

Experts in Technical Trading

Dimple

Dimple contributes to the team by overseeing key operational functions and supporting the company's technical and trading activities.

Paramjeet Singh

Paramjeet specializes in supply chain optimization and ensures smooth operational processes across the organization.

Sarabjeet Singh

Sarabjeet provides expert advice on technical solutions, leveraging his extensive background in engineering and project management.

“JBL Technical Trading consistently exceeds our expectations.”

- Reliable, on-time maintenance
- Fast response during emergencies
- Skilled and certified technicians
- Transparent communication
- High-quality repairs and servicing using genuine parts
- Customized maintenance plans tailored to client needs

The background of the image shows a person in a blue shirt working on a large industrial generator. The person's hands are visible, one holding a tool. The generator is a complex piece of machinery with various components like belts, pulleys, and metal casings. The image is framed by large red diagonal shapes on the left and right sides. The JBL logo is prominently displayed in the center, featuring a black 'J' with a red lightning bolt, followed by 'B' and 'L' in blue with black outlines.
